- Diabetic Teaching and Care
- And many other home-based services

DO YOU QUALIFY

We accept insurance of all types
whether private or government

To qualify for home health services, you must have a medical need for the skilled services of a nurse, aide or therapist. You must meet Medicare's definition of homebound. This only means that leaving the home requires taxing effort and that you therefore leave the home infrequently. You can be temporarily homebound due to illness or injury. Comfort Home Healthcare must also receive orders from your doctor to provide home health services. Upon request from you or referral from your doctor, Comfort Home Healthcare will coordinate with your doctor directly. We can provide home health services in assisted living facilities as well as in private residences.

We can provide more information over the phone or schedule a **free, in-home nursing assessment**.

If you or someone you know may benefit from nursing, aide or therapy in the comfort of your home, please call Comfort Home Healthcare now.

OUR MISSION

Comfort Home Healthcare, Inc. provides quality, comprehensive home care services, while ensuring dignity and respect in a cost-effective manner.

We are committed to providing a high level of quality care that encourages the safe and cost-effective delivery of home health services, maximizing patient autonomy and coordination of community and agency resources, to decrease illness burden and unnecessary duplication of services, thereby promoting positive patient outcome.

The organization provides accountability for care, treatment and services provided by monitoring and evaluating performance outcomes and a continuous quality improvement program.

DO YOU NEED HOME HEALTH CARE?

You can benefit from Comfort Home Healthcare's Services if:

- You are seeking to shorten a hospital or nursing home stay
- You are returning home after an illness or injury and have not reached your former health or ability
- You can use additional, one-on-one teaching about medications, diet or health regimens
- Your condition presents a likelihood of worsening and nursing observation could help
- Your leg weakness or gait presents a likelihood of a fall injury

HOW COMFORT HOME HEALTH CAN HELP YOU

Many of the services you receive in a hospital or nursing home are also available to you in your own home. Comfort Home Healthcare sends nurses, therapists, aides and medical social workers to your home so you can recuperate in a more comfortable, less costly environment.

OUR TEAM

Our team of caring professionals are dedicated to meeting your needs. Whether emergency or long-term care is necessary, we want to help you with the best care possible. We are a Wisconsin based Agency.

Our nursing staff and home health aides are specially trained and oriented.

The care, treatment and services provided by Comfort Home Healthcare, Inc. are provided to patient without regard to age, race, religion, sex, national origin or disability. You can depend on our experienced staff to provide you with the best care.
